

OFSTED website compliance package for schools

OFSTED schools inspectors look for certain documents and information on the websites of the schools they inspect, much of which your school will already have online. But do you have the time to keep on top of it?

COMPLIANCE PACKAGE – SAVING YOU TIME

HD Words offers an OFSTED website compliance package for schools, checking that all the information and documents OFSTED needs is **easy to find**, and **up to date**. The findings of my compliance check will be presented to you in a status report outlining the absence or location of each item of required information, to enable you to update easily, and the publication date of any documents, so you can make sure the most recent versions are available.

THE COST TO YOU

The service is offered at **£200 for an initial check** or if your website has undergone a significant overhaul since my previous check, and **£60 for a subsequent check**, offered at intervals to suit your convenience (termly, annually, when an inspection is imminent, etc).

WHO IS HD WORDS

I am Hannah, of HD Words; an **experienced proofreader and copywriter**, used to digging for facts, and focussed on the small details that OFSTED will be interested in. I have significant WordPress experience, and can make small edits to the back of your site (e.g. updates to Trustees' names, loading a more recent version of a document) for an additional charge, if that would be useful.

GET IN TOUCH

Please get in touch for more details, and to discuss rates for Academies with more than one school website. This service is **suitable for maintained or academy run primary and secondary schools and colleges**.
